Dear Leader Kim (친애하는 지도자 김) deconstructs Trump.

Shaping the general idea of what he would say, I expected he would make stereo-typed, prepared remarks a little different from what he used to utter in his office on the spur of the moment as he had to speak on the world's biggest official diplomatic stage.

But, far from making remarks of any persuasive power that can be viewed to be helpful to defusing tension, he made unprecedented rude nonsense one has never heard from any of his predecessors.

A frightened dog barks louder.

I'd like to advise Trump to exercise prudence in selecting words and to be considerate of whom he speaks to when making a speech in front of the world.

The mentally deranged behavior of the U.S. president openly expressing on the UN arena the unethical will to "totally destroy" a sovereign state, beyond the boundary of threats of regime change or overturn of social system, makes even those with normal thinking faculty think about discretion and composure.

His remarks remind me of such words as "political layman" and "political heretic" which were in vogue in reference to Trump during his presidential election campaign.

After taking office Trump has rendered the world restless through threats and blackmail against all countries in the world. He is unfit to hold the prerogative of supreme command of a country, and he is surely a rogue and a gangster fond of playing with fire, rather than a politician.

Gila Shoshannah Deiah bless you too Paul 😊 btw.. it's ironic that now is accepted as the Jewish new year because actually that is in the spring, at the beginning of the month of Nissan, though we don't make a huge deal of celebrating it as such.. Rosh Hashannah (from wed night to friday night) is actually, according to Jewish tradition, the new year for the WORLD. certainly an auspicious day with so many times coinciding 😊

This is an all-hands-on-deck moment. The GOP is just one vote shy of repealing the Affordable Care Act and replacing it with something that doesn't even deserve to be called a health care bill.

**Gila Shoshannah Deiah** normally one needs a court order for a search warrant if there is reason to suspect some kind of crime. Otherwise it's a breach of privacy. You don't want people demanding who has privately visited your own

home or business. So if there is a suspicion of crime.. let them get a court order to release these records.

Katie C. Min I commented on another friend's post but I loathe domestic flying and I'm still more likely to buy a flight than ride this bus. I have Global Entry/TSA PreCheck the cost of which balances against a few of these bus trips. Even without PreCheck, I dunno.
